SUMMARY

Python Developer with expertise in Django and REST API development, focused on building scalable, secure, and high-performance backend systems. Experienced in designing robust architectures, optimizing databases, and developing maintainable, API-driven applications.

EDUCATION

- Sri Ramachandra Institute of Higher Education and Research** Chennai, Tamil Nadu
B.Sc. in Data Science 2026 – Present
- Christ The King Polytechnic College, Anna University** Coimbatore, Tamil Nadu
Diploma in Electrical and Electronics Engineering 2018 – 2020

EXPERIENCE

- Singularis Software Technologies** Kerala, India
Python Developer Feb 2025 – Present
 - Developed scalable backend systems using Python and Django, following clean architecture principles.
 - Designed and implemented RESTful APIs using Django REST Framework.
 - Optimized SQL queries to improve database performance and reliability.
 - Automated backend workflows and routine tasks using Python scripts.
- Whay Lab Solutions** Kerala, India
Python Developer Intern Feb 2024 – Feb 2025
 - Developed Django applications with authentication and role-based access control.
 - Implemented backend business logic and data processing workflows.
 - Designed and optimized database schemas using SQLite and MySQL.
 - Assisted in debugging, testing, and deploying Python-based applications.

PROJECTS

- Billing and Inventory Management System**
 - Developed a Django-based backend system for billing, inventory management, and GST calculations.
 - Implemented automated invoice generation, tax computation, and low-stock alert mechanisms.
 - Designed normalized MySQL database models for products, customers, and transaction records.
- E-Learning Platform**
 - Built backend modules using Django and Django REST Framework for course and user management.
 - Implemented secure authentication, role-based access control, and learner progress tracking.
 - Integrated REST APIs for payment processing and learning analytics.
 - Optimized database queries to efficiently handle large volumes of user activity data.

SKILLS

- Programming:** Python, SQL, JavaScript
- Web Technologies:** HTML, CSS, Bootstrap
- Frameworks & Backend:** Django, Django REST Framework
- Databases:** MySQL, SQLite
- DevOps & Deployment:** AWS (EC2), Nginx, Gunicorn
- Tools:** Git, Postman, REST APIs
- Data Processing:** NumPy, Pandas

CERTIFICATIONS

- Full Stack Development — Whay Lab Solutions
- Python (Basic) — HackerRank
